YOUR SPECIALTY EGG BRAND WITH A RAINBOW
OF OPTIONS AVAILABLE – DAY OLD CHICKS AND
16-WEEK PULLETS AVAILABLE IN THE U.S.

CZ DOMINANT PARTNERSHIP

At Potters Poultry we are very proud to have been selected by CZ Dominant to be their licensed supplier of colored egg laying chicks in North America. This combines CZ Dominant's 60+ years' experience in the poultry breeding industry with our 50+ years of experience rearing pullets and engineering nesting equipment.

The result is a company in North America which can meet all of your colored egg laying needs, from ordering chicks to rearing pullets and delivering 16 week old mature, uniform pullets to your farm.

The history and tradition of layer selection in Czechoslovakia commenced in 1928. The first closed lines were produced in 1955 at the Dobrenice Research Station under the 'Dominant' name. Selection uses internationally recognised genetic principles and latterly their XXXX

Potters adaptability and flexibility is designed to meet all of our customers' requirements by operating a variety of cage free multi-tier rearing systems including raised tables, open aviaries, and compact aviaries. Potters' multi-tier reared pullets are active, mobile and geared for the challenges of your cage free egg production.
